

VIVA PREPARATION - SEMINAR + MINI PROJECT

SEMINAR: Blockchain Adoption Among Social Media Influencers

Blockchain is a decentralized digital ledger ensuring transparency and security.

Influencers help spread blockchain adoption due to their audience reach.

Key Models: TAM (Usefulness & Ease) and TRI (Optimism, Innovativeness, Discomfort, Insecurity).

Findings: Optimism & Innovativeness increase adoption; Ease of use & usefulness are key.

Applications: NFTs, smart contracts, content verification.

MINI PROJECT: Employee Management System

Web-based system to manage employees, attendance, salary, and feedback.

Roles: Manager, Supervisor, Employee.

Technologies: HTML, CSS, JS, PHP, MySQL.

Architecture: 3-tier (Frontend, Backend, Database).

Security: bcrypt hashing, prepared statements, role-based access.

Features: Attendance tracking, salary calculation, feedback system.

Advantages: Automation, accuracy, transparency.

Future scope: Cloud, mobile app, AI analytics.
